Dear Ms. Bloodworth,

Thank you for your correspondence dated March 6, 2023 concerning coal retirements and PJM's Feb. 24 paper entitled "*Energy Transition in PJM: Resource Retirements, Replacements & Risks.*" We appreciate your engagement on the paper and in the broader subject matter. The clear articulation of your views on PJM's assumptions related to coal retirements is helpful.

On March 28, PJM will hold a workshop to discuss some of the underlying mechanics of the paper. The thoughts expressed in your correspondence will certainly add to what we expect will be a robust discussion. We welcome your participation in that setting, as well as your continued engagement in our stakeholder processes as we work together to develop viable solutions to the critical issues that we face as an industry.

Sincerely,

Manu Asthana  
President & CEO, PJM Interconnection
