

Cost Development Subcommittee Monthly Progress Report

December 19, 2022

Fuel Cost Policy

Issue Status

- A new cost offer template is being finalized at CDS.
- Manual language is being drafted on Heat Input and Modeling Options for Combined Cycle units and Specialized Boilers. These are guidelines only.

Target Completion

January 2023 – Cost Offer Template

March 2023 – Heat Input and Modeling Options for CC and Specialized boilers

Progress Update

Once finalized, the Cost offer template will be posted on PJM website. Updated manual language will be brought through the stakeholder process.

Action requested (if necessary)

Feedback is requested from stakeholders on potential items for 2023 CDS workplan. Click [here](#) to register for CDS meetings.
