Capacity Market – Post-Workshop
Next Steps

April 07, 2021

- A total of **270** stakeholders
 - Voting Members: 64
 - Affiliate Members: 196
 - Non-Members: 10

- Preference on stakeholder process to employ for the MOPR phase one issue as scoped during the Capacity Market Workshop Session 4.

Question One Results

	1	2	3
Critical Issue Fast Path	160	86	24
	59%	32%	9%
Enhanced Liaison Committee	5	154	111
	2%	57%	41%
Consensus Based Issue Resolution	105	30	135
	39%	11%	50%

- Any other issues you would want to add in to the discussion during phase one?
 - 24 unique responders representing 158 stakeholder responses
 - Of those responses:
 - Many stakeholders recommended limiting phase one to MOPR
 - But others recommend a broader scope or more aggressive timeline – no consensus on what that is but ranging from:
 - Full holistic review of the capacity market
 - Repricing + capacity definition + capacity performance
 - Commitment to look at the reliability attributes on a more aggressive timeline than proposed
 - Implications of ELCC

- Any other feedback you wish to provide?
 - 22 unique responders representing 128 stakeholder responses
 - Myriad feedback, including:
 - Address capacity market issues holistically
 - Ensure there is clarity around timing and scope of phase 2
 - If phase 1 is limited to MOPR, allow MOPR to be revisited in phase 2
 - Should not redesign or remove MOPR alone – unacceptable; need competitive price signal
 - Quick process not in best interest of customers and the PJM market
 - Minimize efforts for unit specific showings
 - Ensure state participation in the discussion
