

## Issue Source

American Municipal Power, Inc. (AMP), Delaware Municipal Electric Corporation (DEMEC), Old Dominion Electric Cooperative (ODEC), PJM Public Power Coalition, Public Power Association of New Jersey

## Stakeholder Group Assignment

This work is assigned to the State Actions Capacity Market Review Senior Task Force (SASTFCMRSTF) reporting to the MRC.

## Key Work Activities

The group is expected to:

1. Identify the objectives and characteristics of a well-functioning capacity construct.
2. Identify current and potential out-of-market actions ~~states could take regarding resource adequacy, fuel diversity, public, and environmental policies~~ that may not be compatible with the objectives of the capacity market.
3. Identify areas where state-out-of-market actions may interfere with price formation in ~~and~~ the current RPM capacity construct ~~may thereby produce producing~~ non-complimentary results.
4. Given the results from Activities 1-3, brainstorm and develop modifications to RPM that may accommodate/address both capacity construct objectives and state-out-of-market actions.

## Expected Deliverables

Deliverables are expected to include changes to PJM Operating Agreement, Tariff, Reliability Assurance Agreement and manuals.

## Expected Overall Duration of Work

The duration of activities in the group are expected to be completed by the end of the third quarter of 2018.

## Decision-Making Method

Group will seek Tier 1, consensus (unanimity) on a single proposal for the issues identified in the group
