

# Duquesne Light Company Dynamic Line Rating Announcement

1/12/2023

# Dynamic Line Ratings (DLR)

## Duquesne Light Implementation

---

- Duquesne Light installed DLR sensors on two 138 kV circuits and one 345 kV circuit as part of a pilot project.
  - Crescent – North Z-20
  - Crescent – North Z-21
  - Collier – Tidd 301
- Duquesne Light is now announcing its intent to operationalize DLR on these three circuits.
- Duquesne Light will coordinate with PJM staff to ensure all PJM Manual requirements are met as part of DLC's DLR implementation.
- DLR Go-Live date is tentatively scheduled for Q4 of 2023.
  - A specific date will be provided in the future.
