- PJM Open Access Transmission Tariff (Tariff), Attachment P, section 1 and Appendix 2, section 14.1.1 cause PJM increased administrative burden
 - PJM Tariff, Attachment P, section 1 does not contain pro-forma language accounting for circumstances when ICSA supersedes already-effective ICSA
 - PJM Tariff, Attachment P, Appendix 2, section 14.1.1 provides for automatic termination of ICSA upon occurrence of last of four conditions, which can occur without PJM's knowledge
- These provisions can make it difficult for PJM to efficiently administer its service agreements tariff

PJM Tariff, Attachment P – ICSA

- Approve language changes to PJM Tariff, Attachment P, section 1; and
- Approve language changes to PJM Tariff, Attachment P, Appendix 2, section 14.1.1.

PJM Tariff, Attachment P – ICSCA

- ICSA Superseding Language
 - Account for circumstances when an ICSA supersedes an already-effective ICSA
 - Mirroring language in PJM Tariff, Attachment O, section 1
- ICSA Automatic Termination Provision
 - Make auto-termination contingent upon: (1) PJM receiving notice of the occurrence of the four conditions; and, for ICSAs on file with the Commission, (2) PJM cancelling such ICSAs in accordance with Commission rules and regulations

PJM Tariff, Attachment P – ICSA

- Stakeholder discussion and feedback to ICSA auto-termination provision
 - Contemplated application of ICSA auto-termination provision (see slide 6)

- **Conforming ICSAs**
 - Terminate on the date TO provides notice that conditions set forth in 14.1.1(a)(i)-(iv) have occurred
 - In respective EQRs, PJM and TOs can reflect conforming ICSAs as cancelled effective on notice date

- **Non-conforming ICSAs**
 - Terminate after TO provides notice that the conditions set forth in 14.1.1(a)(i)-(iv) have occurred; and
 - PJM files the required notice of cancellation and such cancellation is accepted by FERC
 - PJM serves parties to ICSAs, including TOs, with notice of cancellation
 - Terminates on the effective date accepted by FERC
 - In respective EQRs, PJM and TOs can reflect non-conforming ICSAs as cancelled as accepted by FERC
