

Attachment M-3 Update

Sami Abdulsalam
Senior Manager, Transmission Planning
Planning Committee
March 7, 2023

- Review of issues
- Discuss remaining open items
- Completion of M-3 Action items

- **Issue:** M-3 does not include any specified timeline between when a Need is submitted and a Solution is proposed. When a credible, identified Need is identified – how long should it take to see a proposed Solution? (Item 25)
- **Resolution:**
 - PJM commits to an ongoing review of the open needs with the Transmission Owners to ensure the continuing validity of identified needs

- **Issue:** Request to add information on slides relating to other supplemental projects and baseline upgrades which may be in the electrical vicinity of the M-3 need being discussed (Item 40)
- **Resolution:**
 - PJM continues the development of mapping technologies including enhancements that highlights location of projects at submittal of solution. Work on integrating this location data into mapping technology continues in 2023.

- Map project
 - Q4 2023/ Q1 2024 Capital Project
- M-3 does not include any specified timeline between when a Need is submitted and a Solution is proposed
 - PJM has communicated this issue to Transmission Owners
