**Legend**

-  Start Date
-  End Date

- Enhancements
  - User registration process updates
    - To enhance security for which Member accounts users can register.
    - Users will only be presented with a list of companies for which the domain of their email matches.
  - System Account process updates
    - To enhance security for System Accounts to ensure the System Account is accurately logged into Account Manager as a System Account separate from User Accounts.
    - The new process will require an owner be specified for the System Account.

- Enhancements
  - User to Member relationship
    - As part of the Know Your Customer initiative, PJM would like to have a person who has a user account in Account Manager specify their working relationship or Employed As Relationship with the Member company they are associated with in Account Manager.
    - Additional field on user profile to designate whether a user is an employee, contractor, agent of/to the Member.

# Product Details

[Account Manager](#) is used to create accounts and request and grant access to PJM's tools and website.

## **Key Product Features**

- Grants access to PJM Tools
- Member CAM's can determine and regulate access for their respective companies

[Bulletin Board](#) facilitates power contracting activity.

## **Key Product Features**

- Provides users with access to a larger pool of buyers and sellers of contracts for electric power
- Allows users to view, post and modify requests to buy or offers to sell power

[Data Viewer](#) allows users to view operational and market data graphically.

## **Key Product Features**

- Display real-time LMPs, IT SCED forecasted LMPs, Dispatch Rate, etc.
- Customizable data plots and graphs

[eDataFeed](#) is a web service that allows subscribers to select and “stream” PJM locational marginal price data, as well as some operational data directly into their system. eDataFeed delivers information in a format called Simple Object Access Protocol (SOAP) that enables data capture, analysis and decision support to meet the trading, risk management and business decisions of PJM’s members (customers).

## **Key Product Features**

- Allows for automated data retrieval

[Messages](#) provides updates and important messages regarding PJM tools.

## **Key Product Features**

- Used by members to view updates and important messages regarding PJM tools

[Resource Tracker](#) provides generation owners a single view of generator ownership information as recorded across various PJM applications.

## **Key Product Features**

- Single point mechanism for generator ownership information
  - Ownership changes
  - Energy, Capacity and Ancillary Service Ownership
  - Marketing Company
  - Dispatching Company
- Annual confirmation period

[Voting](#) facilitates voting at the Markets and Reliability Committee and Members Committee meetings.

## Key Product Features

- Facilitates voting at the Markets and Reliability Committee and Members Committee meetings
- Vote tallying and reporting
- Tool also allows both on-site and remote meeting attendees to cast votes for agenda items presented to the membership for voting
