

**Rob Manning**

*Vice President, Transmission and Distribution Infrastructure*

Rob Manning is vice president of Transmission and Distribution Infrastructure for the Power Delivery and Utilization research sector at the Electric Power Research Institute (EPRI). He has overall management and technical responsibility for the annual research activities conducted by EPRI's transmission and distribution programs in collaboration with its global membership.

Prior to joining EPRI, Manning served as the executive vice president and chief external relations officer for Tennessee Valley Authority (TVA), where he was responsible for TVA's government relations, customer relations, and economic development. He also served as the executive vice president of power system operations and senior vice president of shared services at TVA.

Manning joined Duke Energy in 1978 and served as process owner for energy delivery, vice president of electrical standards, vice president of electric transmission and distribution, vice president of gas pipeline engineering, and vice president of operations for the Carolinas before leaving for TVA in 2008.

Manning has chaired or served on the board of a number of industry organizations. He served on the University of Houston Engineering Leadership Board, and serves as immediate past president of the North Carolina State Engineering Foundation Board. Manning is also the President of One Heart Global Ministries, a non-profit ministry organization.

Manning earned a Bachelor of Science in electrical engineering from North Carolina State University where he was recently named to the NC State Electrical and Computer Engineering Hall of Fame. He also holds a Master of Business Administration from Queens College in Charlotte, North Carolina.
