

Proposal Questions for Package Sponsors

CCPPSTF

September 11, 2017

- How do you define the problem that you are trying to solve with your proposal?
- Does your proposal accommodate resources with state government preferences on a non-discriminatory basis? How?
- Will your proposal encourage or frustrate state policy objectives or other subsidies?
- What is your definition of an actionable subsidy (you may include specific factors such as MW or economic thresholds, timing of payment, rate and reasons for the subsidy, etc.)?
- What impact does your proposal have on energy markets?
- Will your proposal result in or mitigate long term price suppression in the capacity market and/or the energy market?
- How do you think your proposal will impact bidding behavior?

- Please address the effects of your proposal on potential market manipulation.
- Please address the potential for “leakage” (the effects of one jurisdiction’s actions on other jurisdictions).
- What is the preferred implementation timing?
- For repricing proposals, please explain your treatment for “in between” resources and why you believe it is the right approach (“in between” resources are those that did not clear in one stage of a repricing proposal but offered at a level less than the final clearing price determined in a second stage).
