

Revision of the Obsolete References in the OATT, OA, and RAA

Jim Burlew
January 26, 2012

1. The purpose of the modifications is to remove obsolete references in the OATT, OA, and RAA.
2. The specific revisions are in the posted chart.
3. The Markets and Reliability Committee endorsed the revisions at its meeting on December 21, 2011.
4. The Members Committee conducted a first read at its meeting on November 22, 2011.
5. PJM requests the endorsement and approval of the Members Committee.

1. Revision of the references to Applicable Regional Reliability Council (*e.g.*, replace Applicable Regional Reliability Council with Applicable Regional Entity).
2. Removal of the references to ECAR, MAAC, MAIN, and VACAR and revision of the references to Reliability*First*.
3. Revision, or removal, of the references to the PJM regions and regional agreements (*e.g.*, the PJM South Region and PJM West Region, East RAA, West RAA, and South RAA).

1. Obtain the endorsement and approval of the Members Committee.
2. File the revisions with FERC in the first quarter of 2012.
