**RE: Support for Consumer Advocate Organization Funding**

Dear Mr. Schneider:

Duquesne Light Company (“Duquesne”) endorses the position supporting the creation and funding of Consumer Advocates of PJM, Inc. (“CAPS”) expressed by the consumer advocate offices in their letter to you of November 19, 2010. Duquesne agrees that the creation of CAPS, a non-profit entity that will provide assistance to organizations designated by the laws of their respective jurisdictions to address the interests of utility consumers, would be beneficial to the retail consumers of electricity in the PJM region and would further PJM’s efforts to advance the goals of FERC Order No. 719.

Duquesne recognizes that the ultimate goal of establishing competitive wholesale electricity markets on a regional basis is to benefit retail consumers who shoulder the costs through their generation and transmission rates. Furthermore, Duquesne agrees with the consumer advocate offices that creating and funding CAPS will provide more effective representation of retail consumers, will add balance to the stakeholder process, and will benefit the PJM Board, PJM management, and PJM members.

Sincerely yours,

**/s/ Frederick J. Eichenmiller**
