

# eDART Release

December, 2005

- **Generation Users**
  - Automatic Menu Refresh
- **Transmission Users**
  - Automatic Menu Refresh
  - System Impacts for Transmission Outages
- **Hardware / Software Maintenance**

The menu for the Gen Ticket application has been updated to automatically refresh status numbers every 5 minutes.

The menu for the Transmission Ticket application has been updated to automatically refresh status numbers every 5 minutes.

- There are key issues that should be highlighted whenever certain key facilities are outaged (ex. Cabot CB derates and Doubs XFMR derates based on outage of certain station facilities)
- This new functionality automatically performs this process
- When a ticket is reviewed by PJM if there are any such issues that should be reviewed, they are automatically loaded into the ticket.

**Transmission Ticket System Impacts**

Ticket ID: 129773

Title	Comments
System Impact Example	This is an example of the Sytem Impact functionality. If this was an actual impact the ticket and the facilities

- Tickets containing System Impacts will be highlighted in light purple in the Status and View / Revise Reports
- Also for your convenience a color legend has been added to these reports

Much of the outage time for this release has to do with general environment maintenance to the eDART servers.

- If you have any further questions about the release please feel free to send an email to [edarthelp@pjm.com](mailto:edarthelp@pjm.com)
- Also, please remember to register for the next eDART Users Group Meeting on January 17<sup>th</sup>
  - Registration Form: <http://www.pjm.com/committees/form-edartug-attend.jsp>
  - Scheduled Topics:
    - Gen Checkout
    - TERM Phase 2
    - General User Issues
    - Upcoming Upgrades
