

Section 16: Topical Index

The Topical Index below provides a guide to 2010 PJM RTEP results, processes and challenges as discussed in this report.

Topic	Section Reference(s)		
Aging Infrastructure	---		
Mt. Storm - Doubs Rebuild	8.0	8.1	
Carson Suffolk Transmission Line	---		
Status	14.12.5		
Executive Summary	1.0		
Generator Deactivation	---		
At-Risk Generation	4.0.3	4.1.2	
Process	2.4	4.3	
Eddystone	4.3.1		
Cromby	4.3.1		
Hudson	4.3.2		
Generator Interconnection Requests	---		
Fuel Mix	2.3.2	2.3.3	2.3.4
Process	2.3		
Queue Status	2.3.1		
Interregional Coordination	---		
Agreements	12.0		
Eastern Interconnection Studies	12.1		
PJM / NYISO / ISO-NE Studies	12.2		
PJM / Midwest ISO Studies	12.3		
PJM and Systems South	12.4		

Topic	Section Reference(s)						
Load Forecasting	---						
2010 Forecast	2.1	2.1.1	2.1.2	2.1.3	2.1.4		
Demand Resource Saturation	15.2	15.2.1	15.2.2	15.2.3	15.2.4	15.2.5	
Demand Side Response	2.2						
Load Forecasting Methodology Enhancements	15.1						
Market Efficiency	---						
Annual RTEP BES Studies	13.2						
Process	13.0	13.1	13.3				
Market Integration	---						
American Transmission Systems, Inc. (ATSI)	11.0	11.1					
Duke Energy	11.0						
Merchant Transmission Interconnection Requests	---						
Process	2.5						
Queue Status	2.5						
Mid-Atlantic Power Pathway (MAPP)	---						
Alternatives	6.4	6.5					
Description	6.0	6.1					
Need	6.2	6.3					
NERC Compliance	3.2	3.2.1	3.2.2	3.2.3	3.2.4	3.2.5	3.2.6
Northern New Jersey	---						
230 kV Alternative	7.3						
Branchburg Roseland Hudson	7.0	7.1					
Criteria Violations	7.2						
Potomac Appalachian Transmission Highline (PATH) - (Amos-Welton Springs-Kempton 500 kV Line)	---						
Alternatives	5.5	5.6					
Description	5.0						
Need	5.2	5.3	5.4	5.6.7			
Suspension	5.7	15.7					

Topic	Section Reference(s)					
Public Policy	---					
Backbone Sensitivity Studies	4.1					
Description	3.7	4.0	15.3			
Off-Shore Wind Study	4.2					
Renewable Resources	2.3	15.3.2				
Regional Transmission Planning Process	---					
Future Technologies	15.4					
Generator Deliverability Test Condition	3.3.2					
Light Load Operational Performance	15.6					
Load Deliverability Test Condition	3.3.1					
Process Description	3.1	3.1.1	3.1.2			
Reactive Analysis	3.5	3.5.1	3.5.2	3.5.3		
Stability Analysis	3.4.2	9.5				
Thermal Analysis	3.3	3.3.1	3.3.2	3.3.3		
Regional Planning Process Task Force (RPPTF)	---					
Alternate Transmission Proposals	15.5					
FERC Transmission NOPR	15.5.1					
Public Policy as Driver	15.3					
Reliability Pricing Model (RPM)	10.2					
Retool Analyses	10.3					
Sub-Regional BES Upgrades	9.0	9.1	9.2	9.3	9.4	9.5
State-by-State Summary	14.0					
Susquehanna - Roseland 500 kV Transmission Line	10.3.2					
Trans-Allegheny Interstate Line (TrAIL) - 502 Junction - Loudoun 500 kV Line	---					
Status	14.10.5
