

**June 23, 2009**

The PJM OASIS has been updated to incorporate the new Spot Import process. Please refer to our [Regional Practices](#) sections 1.5.3, 1.6, and 1.10. Also updated on the OASIS are the functionality for Energy Scheduled, the schedule detail template, and long-term firm transmission service requests.

**January 31, 2009**

The PJM OASIS has been updated to incorporate the resale functionality of the NAESB WEQ standards. This includes new screens for the user interface and new functionality for the version 1.5 template interface. Please refer to our [Resale Transactions Overview](#) document.
