

Former PJM.com To Be Retired

The former PJM Web site available at legacy.pjm.com will be retired Wednesday, April 8 at 7 a.m. This Web site was provided after the launch of the new PJM.com in December to allow members and stakeholders time to get accustomed to the new site. After April 8, any visitors to legacy.pjm.com will automatically be directed to the new pjm.com.

PJM continues to make enhancements to the Web site based on user feedback and will provide ongoing communications about site updates to members and stakeholders.

Please continue to report any Web site problems to Member Relations at 610-666-8980 or toll free at 866-400-8980. Web site feedback also may be submitted via the [Contact Us](#) form on pjm.com or via the Web site [survey](#).

A list of PJM.com frequently asked questions is available at www.pjm.com/Home/faqs/web-site.aspx.

PJM Interconnection ensures the reliability of the high-voltage electric power system serving 51 million people in all or parts of Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia and the District of Columbia. PJM coordinates and directs the operation of the region's transmission grid, which includes 6,038 substations and 56,350 miles of transmission lines; administers a competitive wholesale electricity market; and plans regional transmission expansion improvements to maintain grid reliability and relieve congestion.
