Howard Schneider
Chair
PJM Interconnection
PO Box 1525
Southeastern, PA 19399-1525

Dear Mr. Schneider:

I assume you are aware that Exelon is planning to shut down the Eddystone Generation Station located in Eddystone, Pennsylvania and the Cromby Generation Station located in Phoenixville, Pennsylvania.

It has been brought to my attention that this final decision has to be approved by PJM Interconnection, which as a regional transmission organization, manages the high-voltage electric grid and the wholesale electricity market that serves this area in Delaware County in Pennsylvania. I respectfully urge you to fully consider the strained energy reliability that these closings will place on Southeastern Pennsylvania. With only two major generation plants, Limerick and Peachbottom, serving this heavily populated and industrial area, I am asking that the board take this fully into consideration.

I thank you for your time and consideration on this matter. Should you need any information, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Bry R. Lentz", with a long horizontal line extending to the right.

Bryan R. Lentz
State Representative
