

1200 / 1800 Load Forecast Accuracy Summer 2011

Brad Gordon
Operating Committee Update
September 2011

1200 / 1800 Load Forecast Accuracy – Summer 2011

- Average 1200 RTO load forecast accuracy was 98.31%
- Average 1800 RTO load forecast accuracy was 98.67%
- Significant factors included:
 - ATSI Integration
 - Highly dynamic weather patterns
 - Reduced temperature forecast quality
