

Generator Reactive Deficiency Mitigation Process Implementation

Mark Sims
Planning Committee
June 9, 2010

- PJM Manual 14B, Attachment H: Generator Reactive Deficiency Mitigation Process
 - Endorsed by PC in May 2010
 - Brainstorm sessions to identify process implementation issues
 - Follow-up teleconference with the Reactive Power Focus Group to review the identified issues
 - Future MRC approval

- **Brainstorm Session**
 - Reactive Deficiency Charge
 - Collected by PJM and immediately distributed to TO zone
 - Tracking
 - Charges collected vs. Baseline Upgrades assigned
 - Implementation timeline
 - When do we make the process available?
 - Other issues/ideas
