

NERC and Regional Coordination Update

December, 2010

Standards	Project	Activity	Due Date
NERC CIP-002 through CIP-009 (RC, BA, IA, TSP, TO, TOP, GO, GOP, LSE)	Project 2008-06 - Cyber Security Order 706 – The Cyber 706 SDT has posted its consideration of the comments submitted during the comment period and initial ballot ending November 3, 2010 and made conforming changes, based on those comments, to CIP-002-4 and the associated implementation plans.	Successive ballot and comment	12/10/2010
NERC CIP-005-4 (RC, BA, IA, TSP, TO, TOP, GO, GOP, LSE)	Project 2010-15: Urgent Action Revisions to CIP-005-3 -The Standards Committee directed that the standard undergo a Quality Review during the comment period and prior to the ballot. The Quality Review team proposed some clarifying edits to the standard and some corrections to the VSLs and these were made on December 1, 2010. A redline version of the standard and the associated VSLs showing these edits has been posted for review.	Initial ballot and non-binding pool	12/11/2010

Standards	Project	Activity	Due Date
NERC PER-003 (TOP, BA, RC)	Project 2007-04 - Certifying System Operators – The drafting team has posted its consideration of comments received during the formal comment period and initial ballot that ended on September 24, 2010. The team made a minor change to the footnotes in the standard following the initial ballot and has posted the revised standard and implementation plan (unchanged) for a 10-day recirculation ballot. The standard will be revised to address the directives from FERC Order 693 and industry comments from Version 0.	Recirculation ballot	12/13/2010
NERC PRC-023	Project 2010-13 - Relay Loadability Order 733 – The proposed second version of the Relay Loadability Standard PRC-023-2 that includes the applicability test in Attachment B.	Comment	12/16/2010

Standards	Project	Activity	Due Date
NERC PRC-005 (TO, GO, DP)	Project 2007-17 - Protection System Maintenance and Testing - The Protection System Maintenance and Testing SDT posted its responses to the comments it received during the comment and ballot periods that ended on July 17, 2010. PRC-005-2 was developed by consolidating four standards (PRC-005, PRC-008, PRC-011, and PRC-017); thus no redline version of PRC-005-2 that shows changes to the previously approved version of the standard has been posted. The team has posted the last approved versions of the four standards that were consolidated to develop PRC-005-2.	Comment	12/17/2010
NERC COM-002-2 (RC, BA, TOP, GOP)	Project 2009-22: Interpretation of COM-002-2 — Communications and Coordination R2 for the ISO/RTO Council – The draft interpretation is posted for a 30-day formal comment period from November 18 to December 18, 2010.	Comment	12/18/2010

Standards	Project	Activity	Due Date
RFC	Verification and Data Reporting of Gen Gross and Net Reactive Power Capability (MOD-025-RFC-01) – Ballot pool closes December 7, 2010. Sixth draft of the standard is posted.	15 Day Pre-Ballot	12/15/2010
RFC	RFC System Restoration Plans (EOP-007-RFC-01) standard Posted for Required Five Year Review	Comment	12/16/2010
SERC	SERC Underfrequency Load Shedding (UFLS) regional reliability standard (PRC-006-SERC-01) - To vote on this standard you must join the ballot pool by the deadline. This will be the first SERC regional reliability standard, and will be enforceable when approved by FERC.	Join Ballot Pool	12/7/2010
