

LAS Vote on Itron Load Forecasting Recommendations

Agenda Item #6
Planning Committee
December 8, 2010

- Load Analysis Subcommittee met by Webex session yesterday (Dec. 7) to discuss the Itron load forecasting recommendations.
- At request of the Planning Committee, a straw poll was taken of member companies present. Votes were only taken on recommendations #1, 2, 3, and 7.
- Members had the option to vote “yes” to incorporate each Itron recommendation for the 2011 forecast, or “no” to not incorporate the recommendation for 2011, or “no, further study” to not incorporate the recommendation for 2011 but that they would consider the recommendation after further study.

Itron Recommendation #1 - Index1 Economic Driver

<u>Yes</u>	<u>No</u>	<u>No, Further Study</u>	<u>Abstain</u>
3	3	11	1

Itron Recommendation #2 - Price Shift Variable
