

Planning Committee
PJM Conference and Training Center, Audubon, PA
June 9, 2016

#### Administration

- 1. Mr. Steve Herling, PJM, called the meeting to order and asked if the Planning Committee had any additional items for the agenda. There were no suggestions for additional agenda items.
- 2. Mr. Herling asked Mr. Michael Herman to review the meeting minutes of the May 12, 2016 Planning Committee meeting. Mr. Herling asked the Planning Committee to approve the minutes. Mr. Dave Pratzon made a motion to approve the minutes. Mr. Ronnie Bailey seconded the motion. In a voice vote, the Planning Committee approved the May 12<sup>th</sup> Planning Committee Minutes.

#### **Endorsements/Approvals**

#### 3. PJM Manual 14C Updates

Mr. Jason Shoemaker, PJM, presented redline changes to Manual 14C. The changes include additions to Manual 14C to support the inclusions of Order 1000 processes. Mr. Dave Pratzon made a motion to endorse and Mr. Carl Johnson seconded the motion. In a voice vote, the Planning Committee endorsed the changes regarding updates to Manual 14C.

#### 4. PJM Manual 14B Updates

Mr. Michael Herman, PJM, presented revisions to Manual 14B. The revisions included updates to Light Load and Winter Peak Reliability analyses to align with current practices; references to TPL-001-1; and updates to Attachment G including compliance language. Mr. Dave Pratzon made a motion to endorse and Mr. John Syner seconded the motion. In a voice vote, the Planning Committee endorsed the changes regarding updates to Manual 14B.

#### 5. IRM Study Assumptions

Mr. Tom Falin, PJM, presented the IRM study assumptions as developed by the Resource Adequacy Analysis Subcommittee. Mr. David Scarpignato made a motion to endorse and Mr. Dave Pratzon seconded the motion. In a voice vote, the Planning Committee endorsed the IRM study assumptions.

#### 6. PJM Manual 7 Updates

Mr. Glenn Bray, PJM Relay Subcommittee Chairman, presented changes to PJM Manual 7, recommended as part of the PJM Relay Subcommittee's biennial review of Manual 7. Based on questions from the membership, updates to Appendix F: Triggered Current Limiters was removed from the approval at this meeting. This item will be brought back to a future Planning Committee meeting pending the outcome of investigation into the prevalence of this technology in PJM's system. Ms. Lisa Krizenoskas made a motion to endorse and Mr. David Scarpignato seconded the motion. In a voice vote, the Planning Committee endorsed the updates to PJM Manual 7 (with the exception of the Appendix F updates).

#### First Readings

#### 7. Transmission Owner Upgrades

Mr. Mark Sims, PJM, discussed RTEP process enhancements related to transmission substation equipment. He also presented revisions to the PJM Operating Agreement. Requests for additions and clarifications to the language were noted and will be considered. Members are asked to review the proposed Operating Agreement revisions that have been made available under the May 12<sup>th</sup> Planning Committee material. The committee will be asked to endorse this language at the July meeting. Planning Committee Website

#### 8. PJM Manual 20 Updates

Mr. Tom Falin, PJM, presented updates to PJM Manual 20, which are a result of a periodic review of this manual. Revisions included updating out of date language to ensure the manual reflects current processes, as well as revisions needed to clarify the implementation of Capacity Performance. Members are asked to review the proposed manual changes that were made available under the June 9th Planning Committee material. The committee will be asked to endorse these manual changes at the July meeting. Planning Committee Website

#### Informational Updates

#### 9. **DEDSTF Update**

Mr. Herman, PJM, presented an update on the progress of the Designated Entity Design Standards Task Force. Mr. Herman explained that this task force has been divided into three sub task forces charged with addressing the following areas: 1) Substations 2) Transmission Lines 3) System Protection and Control Design and Coordination. Mr. Herman presented an update of the status of each of these three subgroups and stated that he will return to the Planning Committee in September with expected timelines for completion. PJM DEDSTF

#### 10. PJM/MISO Queue Study Coordination & Retirement Studies

Mr. Aaron Berner, PJM, provided an update regarding the April 21, 2016 FERC order requiring PJM and MISO to make changes to the location and content of the MISO and PJM queue coordination language as well as adding language for deactivation study coordination. Mr. Berner indicated that the next MISO/PJM JCM meeting will occur in late August, during which the retirement language changes will be reviewed for comment. Additionally, the changes for the retirement and queue coordination language in the JOA and the queue coordination language removal from Manual 14A will be brought back to the PC.

#### 11. Network Upgrade Cost Allocation

Mr. Berner, PJM, provided an update in relation to issues PJM has identified in regards to the network upgrade cost allocation process for New Service Queue Requests. Mr. Berner explained that these updates will not change existing cost allocation procedures for baseline cost allocation. A problem statement including examples of the issue will be brought to the July Planning Committee meeting.

#### 12. PJM Interconnection Queue Status Update

Mr. Dave Egan, PJM, provided an update of the status of the PJM interconnection queues. This update included charts and graphs depicting MW values that have entered the queue in recent months as well as the progression of new generation by study type. Mr. Egan will continue to give periodic updates of the status of the Queues to the Planning Committee.

#### 13. Voltage Threshold

Ms. Sue Glatz, PJM, discussed activities regarding voltage threshold including a deficiency notice that PJM has received and the associated additional information that has been requested by FERC.

#### 14. TPL Spare Equipment Strategy

Mr. Stan Sliwa, PJM, provided an update on TPL Spare equipment strategies. Mr. Sliwa described next steps in PJM spare equipment strategy including polling Transmission Owners regarding lead time and strategies.

#### 15. MOD-032 Update

Mr. Jonathan Thompson, PJM, provided an update of the MOD-032 Gen Model data input system. Mr. Thompson explained that the system went live on May 1 2016, and all Generation Owners are required to submit generator data by July 31, 2016. Please contact <a href="MOD-032@pjm.com">MOD-032@pjm.com</a> with any questions.

#### 16. NERC/RRO Update

Mr. Srinivas Kappagantula, PJM, provided an update on recent NERC activities and PJM compliance activities. NERC standards subject to future enforcement can be found under the June 9<sup>th</sup> Planning Committee Material at the <u>Planning Committee Website</u>.

#### 17. Dominion SPS Modification

Mr. Kyle Hannah, Dominion, presented modification to the existing Clover SPS based on PJM baseline project b1907, a third 230/500 kV transformer at Clover.

#### 18. **COMED Planning Criteria**

Mr. Ronald Regner, COMED, presented revisions to the COMED Planning Criteria. These revisions include new requirements for generators wishing to cut into an existing line for their point of interconnection, and new substation requirements for 345 kV and 765 kV substations, as well as breaker configuration when modifying an existing nuclear substation.

#### 19. Tech Change Forum

Mr. Jim Gluck, PJM, discussed a new member-focused group called the Tech Change Forum. This new group will centralize and share information about system changes that are being made

and will provide a forum for gathering member feedback on change readiness and application design. Please contact your Client Manager if you have any questions.

#### Informational Section

#### PJM/NYISO Wheel Modeling

The current PJM/NYISO wheel agreement is set to expire in April 2017 and ConEd has communicated their intent to not extend the contract. The wheel agreement contracts the transfer of power from PJM to NYISO at Goethals and Farragut and back to PJM from NYISO at the Ramapo and Waldwick interfaces. Currently a four party discussion (PJM, NYISO, ConEd, PSE&G) is ongoing to determine updated operational and planning protocols moving forward.

#### Order 1000 Lessons Learned

On April 29, 2016, an Order 1000 Lessons Learned meeting was held. PJM presented a path forward which included 3 tracks: Reliability project process document, Energy Efficiency project process document, and TEAC Redesign. A fourth track was suggested at the meeting: Upgrade projects. Also, stakeholders requested an education session on the overall RTEP process before embarking on discussion on solutions on any of the tracks. Additional meetings will be scheduled.

#### Model On Demand Update

PJM has posted the 12 MMWG cases within Model On Demand and distributed profiles from last years MMWG cases to facilitate the creation of profiles for this years series of MMWG cases. On June 17th, TOs need to provide profiles for the 12 posted cases to facilitate the finalization of Trial 1 cases. This date will be monitored for compliance.

#### Subcommittee/Task Force Updates

#### Transmission Replacement Processes Senior Task Force (TRPSTF)

The TRPSTF Charter was approved at the MRC on May 26th with no objections or abstentions. Education sessions are currently underway, and the first was held on May 9th, provided an overview of the PJM RTEP planning process. The second session was presented by the Transmission Owners on May 23rd, covering planning criteria and asset management. The next meeting on June 3rd will be the third education session, and cover several modules, including duties, rights, and obligations of signatories to the CTOA along with a review of Order 888, Order 890, Order 1000, and the Atlantic City decision. Additional topics will include FERC rules and orders surrounding planning process and transparency, and cost recovery and allocation.

Please encourage any subject matter experts who may later participate in the TRPSTF to view the recorded training sessions and attend future education sessions, as it is important for participants to remain on the same page for continued progress of this senior task force. Please visit the TRPSTF site for further information, and direct any questions you may have to the TRPSTF secretaries (<u>Julia Spatafore</u> and <u>Jason Quevada</u>).

To receive email notifications, please subscribe to the Transmission Replacement Processes Senior Task Force list serve on the My Email Lists page on your My PJM account.

#### Future Meeting Dates

July 14, 2016	9:30 a.m.	PJM Conference and Training Center, Audubon, PA
August 11, 2016	9:30 a.m.	PJM Conference and Training Center, Audubon, PA
September 15, 2016	9:30 a.m.	PJM Conference and Training Center, Audubon, PA
October 6, 2016	9:30 a.m.	PJM Conference and Training Center, Audubon, PA
November 3, 2016	9:30 a.m.	PJM Conference and Training Center, Audubon, PA
December 15, 2016	9:30 a.m.	PJM Conference and Training Center, Audubon, PA

**Author: Michael Herman**
