

Commissioner Philip D. Moeller

Commissioner Philip D. Moeller is serving his second term on the Commission, having been nominated by President Obama and sworn in on July 16, 2010, by Congresswoman Cathy McMorris Rodgers (R-Wash.), for a term expiring June 30, 2015. He was first nominated to FERC by President George W. Bush in 2006 and sworn into office on July 24, 2006, by Chief Justice of the United States John Roberts.

From 1997 through 2000, Mr. Moeller served as an energy policy advisor to U.S. Senator Slade Gorton (R-Washington) where he worked on electricity policy, electric system reliability, hydropower, energy efficiency, nuclear waste, energy and water appropriations and other energy legislation.

Prior to joining Senator Gorton's staff, he served as the Staff Coordinator for the Washington State Senate Committee on Energy, Utilities and Telecommunications, where he was responsible for a wide range of policy areas that included energy, telecommunications, conservation, water, and nuclear waste.

Before becoming a Commissioner, Mr. Moeller headed the Washington, D.C., office of Alliant Energy Corporation. Prior to Alliant Energy, Mr. Moeller worked in the Washington office of Calpine Corporation.

Mr. Moeller was born in Chicago, and grew up on a ranch near Spokane, Washington.

He received a B.A. in Political Science from Stanford University.

Scott O’Malia

Scott O’Malia was confirmed by the U.S. Senate on October 8, 2009, as Commissioner of the Commodity Futures Trading Commission, and was sworn in on October 16, 2009. He is currently serving a five-year term that expires in April 2015.

Born in South Bend Indiana and raised in Williamston, Michigan, Commissioner O’Malia learned about commodity prices firsthand growing up on a small family farm. As a Commissioner of the Commodity Futures Trading Commission (CFTC), he brings both his agricultural background and experience in energy markets, where he has focused his professional career.

Before starting his term at the CFTC, Commissioner O’Malia served as the Staff Director to the U.S. Senate Appropriations Subcommittee on Energy and Water Development, where he focused on expanding U.S. investment in clean-energy technologies, specifically promoting low-cost financing and technical innovation in the domestic energy sector.

From 2003 to 2004, Commissioner O’Malia served on the U.S. Senate Energy and National Resources Committee under Chairman Pete Domenici (R-N.M.), as Senior Policy Advisor on oil, coal and gas issues. From 1992 to 2001, he served as Senior Legislative Assistant to U.S. Sen. Mitch McConnell (R.-Ky.), now the Senate Minority Leader. During his career, O’Malia also founded the Washington office of Mirant Corp., where he worked on rules and standards for corporate risk management and energy trading among wholesale power producers.

In his time at the CFTC Commissioner O’Malia has advanced the use of technology to more effectively meet the agency’s oversight responsibilities and is seeking the reestablishment of the long dormant CFTC Technology Advisory Committee (C-TAC). As Chairman of the newly reinstated Committee, Commissioner O’Malia intends to harness the expertise of the C-TAC membership to establish technological ‘best practices’ for oversight and surveillance considering such issues as algorithmic and high frequency trading, data collection standards, and technological surveillance and compliance.

Commissioner O’Malia earned his Bachelor’s Degree from the University of Michigan. He and his wife, Marissa, currently live in Northern Virginia with their three daughters.

Bob Anderson

Executive Director – Committee of Chief Risk Officers

Ronald H. Filler

Ron is a Professor of Law and the Director of the Center for Financial Services Law at New York Law School where he teaches several courses relating to derivatives and financial services law. He is also a Public Director of the National Futures Association and of the NYSE Liffe US, a futures exchange affiliated with NYSE Euronext.

Prior to joining New York Law School, he was a Managing Director at Lehman Brothers Inc., specializes in various aspects of the global futures industry, including legal, compliance, administrative, clearing and operations issues. He has been a member of the Board of Directors of the NFA, the FIA, an exchange and a clearing house. At Lehman, he was also a member of several futures exchanges, including the CBOT, the CME and NYMEX. He has held numerous industry positions, including being a Past President of the FIA Law and Compliance Division, and has spoken at over 100 industry seminars and programs on a variety of issues facing the global futures markets. He was the Founder and Director of the Commodities Law Institute and an Adjunct Professor of Law for over 20 years at Chicago Kent College of Law, Brooklyn Law School, New York Law School and the University of Illinois, where he taught courses on "Futures and Derivatives Law", "Securities Law" and "Brokerage Firm Law". Ron received a Masters of Law Degree in Taxation from Georgetown University Law Center in 1976, a J.D. Degree from George Washington University Law School in 1973 and a B.A. Degree from the University of Illinois in 1970.

Randi Abernethy

Randi Abernethy joined LCH.Clearnet in 2006 as a Senior Manager within Corporate Strategy. Since joining she has been involved in developing numerous initiatives, most recently establishing and running clearing services for nodal power futures with Nodal Exchange.

In 1997 Randi joined Goldman Sachs as an Operations Analyst, specialising in syndicated lending. She moved to Pricewaterhouse Coopers in 2004 where she was responsible for developing business opportunities within the business recovery area.

Randi holds an MBA from London Business School and a BSc from the London School of Economics.

Paul Cusenza

Mr. Cusenza is CEO of Nodal Exchange, LLC, which is a cash-settled electric power futures exchange providing participants the ability to trade and central counterparty clear (through LCH.Clearnet) hub, zone and nodal power contracts in North America. The company also offers natural gas contracts. He led the company to its commencement of trading in April of 2009. Nodal Exchange was named “Innovation of the Year” at the 2010 Energy Risk Awards. He has over twenty-five years of experience in building and managing businesses. He was a co-Founder and co-President of 23andMe, a personal genetics company which Time Magazine identified as “The Best Invention of the Year”, and the Senior Vice President of Marketing and Alliance Management at Perlegen Sciences. He was part of the Senior Management Team of Capital One Financial during a period of great growth in the 1990s. Prior to Capital One Financial, he was a Vice President and Partner at Mercer Management Consulting (now Oliver Wyman) for nearly a decade focusing on financial services. He also worked for IBM early in his career. Mr. Cusenza holds a Masters of Business Administration degree from the Harvard Business School and a B.S.E. in Mechanical Engineering from the University of Michigan.

Robert Levin

Robert Levin is Managing Director, Commodity Research & Product Development of CME Group. He oversees all energy, metals, and agricultural research and product development for the company. Levin joined NYMEX in 1987 and was promoted to Senior Vice President of Research in 1993. He held this position until the acquisition of NYMEX by CME Group in 2008.

Prior to joining NYMEX, Levin worked in the policy planning and analysis office of the U.S. Department of Energy. He also worked at the University of New Mexico’s Institute of Applied Research Services overseeing work which concentrated on energy issues.

Levin holds a Ph.D. in economics from the University of New Mexico and an undergraduate degree from the University of Rochester.

John Flory

Mr. Flory is a Senior Managing Director of NASDAQ OMX Commodities Clearing Company, which provides credit management and clearing services for physical and financial power and natural gas in the US. NASDAQ OMX Commodities purchased North American Energy Credit and Clearing Corp, co-founded by Mr. Flory with George Sladoje. Prior to that, Mr. Flory was the founder and President of eNMART Corporation which was formed early in 2001 to assist businesses and state governmental entities in responding to the post-California and post-Enron energy situation. He had previously served as Vice President of Strategic Planning for the California Power Exchange, and was key to the formation of spot markets as well as first of their kind physical exchange-based forward markets for electricity. Prior to joining the Power Exchange, Mr. Flory assisted the California Restructuring Trustee with the start-up of both the California Power Exchange and the California ISO. Previously, Mr. Flory was a principal at Tabors, Caramanis & Associates ("TCA") where he assisted in helping US businesses and utilities plan for spot pricing and industry restructuring, based on TCA's experience in the early restructuring and privatization of electricity markets in other countries. Prior to his role in establishing competitive markets in California, Mr. Flory spent 23 years in the energy industry consulting in retail utility practices (especially load management/ Demand Response), selling energy management systems and working as a senior analyst at the California Energy Commission, giving him over 35 total years in the energy industry. Mr. Flory's education includes a BS in Mathematics from Manchester College in Indiana and an MS in Ecology with emphasis on resilience in energy/economic systems from the University of California at Davis.

Christopher J. Bernard

Christopher J. Bernard is the Head of Trading & Regulatory Compliance for Edison Mission Energy. Chris joined EME as Associate General Counsel of Regulatory, Marketing & Trading in 2007. In that position he was responsible for management of EME legal matters in the areas of regulatory practice, as well as marketing and trading. In 2008 he was tasked with the redesign and revitalization of Edison Mission's Compliance Program, which led to his current position.

In the past Chris served as Lead Counsel for the Exelon Power Team at Exelon Corporation. And General Counsel for Entergy-Koch LP and Entergy Power Marketing Corp.

Chris holds a Doctorate of Jurisprudence from the University Of Tulsa College Of Law and a Bachelor of Arts from Oklahoma State University.

Joseph R. Glace

Vice President, Exelon Corporation
Chief Risk Officer

A 29-year veteran of the energy industry, Glace leads the risk management function for Exelon. As Chief Risk Officer, Glace owns the identification, assessment and monitoring of market, credit, and operational risks, and the communication of those risks to the Risk Oversight Committee of the Board of Directors.

Glace joined Exelon's power trading organization, Power Team, in 2001, as Risk Controller, a role he had previously held with Conectiv Energy (now PepCo). Before Conectiv, Glace was an operations manager on the trading floor for Sunoco in Philadelphia. Glace's previous positions also include the roles of Director of Finance for Puerto Rico Sun Oil Company in San Juan, Puerto Rico, and Finance Manager for Sunoco. Glace began his career in 1980 with the Atlantic Richfield Company (now BP).

Glace has a Masters Degree in Taxation from Widener University and a B.S./M.B.A. from Philadelphia University. He is a Certified Public Accountant.

Aaron Trent

Manager, Financial Analysis
Edison Electric Institute

Aaron Trent is Manager, Financial Analysis, for the Edison Electric Institute (EEI). In this capacity, he develops EEI's technical knowledge and negotiates consensus positions on corporate finance and wholesale energy markets issues.

Mr. Trent advises EEI members on issues including company and power industry financial performance, financing strategies, commodity risk management, and climate risk disclosure. He advocates positions before Congress and the Commodity Futures Trading Commission (CFTC), Federal Energy Regulatory Commission (FERC) and Securities and Exchange Commission (SEC).

Mr. Trent manages EEI's Risk Management Committee of electric utility industry Chief Risk Officers, Treasurers and Directors of Insurance. Mr. Trent earned a B.S. in Applied Economics and Management at Cornell University and MBA in Finance and Financial Instruments and Markets at the New York University Stern School of Business.

Harry Singh

Harry Singh is a Senior Vice President with RBS Sempra in Stamford, Connecticut where he is responsible for working on power and environmental market issues across North America. His work has included renewable energy transactions, origination of capacity transactions across RTOs and regulatory issues such as the development of a Renewable Energy Credit (REC) market in California.

Prior to his current position he was a Senior Advisor at the Federal Energy Regulatory Commission (FERC) where he worked in the Office of Energy Market Regulation on policy issues in electric power markets and also with the Office of Enforcement on several investigations. His assignments included work on the design of long-term transmission rights, Order 890, reforms in RTO markets, Order 679 on Market Based Rates, a report to Congress on the state of electric competition and market redesign in California.

He has also held various positions at PG&E Corp and its regulated and unregulated subsidiaries. He holds a PhD in Electrical Engineering from the University of Wisconsin-Madison.
