

Richard J. Kruse

Vice President,
Regulatory and FERC
Chief Compliance
Officer U.S.
Transmission
Spectra Energy

Richard Kruse is vice president of regulatory and Federal Energy Regulatory Commission chief compliance officer for Spectra Energy's U.S. transmission business. He is responsible for the development and management of the company's regulatory strategy and action with the FERC and directs the pipeline group's position in the state proceedings in each of the states served by the company's pipelines. He is also responsible for managing the company's involvement in the North American Energy Standards Board and serves on the NAESB board of directors.

Kruse joined Texas Eastern Transmission in 1977 as an analyst in Houston, Texas. After a series of promotions, he was named assistant general counsel in 1988, deputy general counsel of regulatory operations for Texas Eastern and Algonquin Gas Transmission in 1990, vice president and general counsel for Texas Eastern in 1992, and associate general counsel for PanEnergy Corp in 1995. In 1997, he was named vice president and general counsel of gas operations for Duke Energy, vice president and general solicitor in 1998, and senior vice president of projects and utility initiatives in 1999. Prior to spin-off of Spectra Energy from Duke Energy, he was vice president of rates and regulatory affairs for Duke Energy Gas Transmission.

Kruse received a Bachelor of Science degree in economics from Texas Tech University in Lubbock and a law degree from the University of Houston.
