Frank Czigler is the manager – Transmission Strategy & Regional Interface at Public Service Electric and Gas Company (PSE&G) of New Jersey – one of the largest combined electric and gas companies in the United States and New Jersey’s oldest and largest publicly owned utility, servicing 1.8 million gas customers and 2.2 million electric customers.

Mr. Czigler has been with PSE&G and its affiliate companies for 25 years, where he has served in various functions – including Environment, Health and Safety management (in the US and globally – where PSEG-Global, an affiliate of PSE&G once had investment holdings), in Licensing & Permitting, in developing Renewable Energy and Energy Efficiency projects, and most recently – for the past year in the company’s Electric Transmission Organization, where he provides expertise and strategy in coordination with in-house transmission planning, legal, and legislative affairs groups.

He holds a Bachelor of Science in Chemical Engineering and a Master of Science in Engineering Management both from The New Jersey Institute of Technology. He is a Certified Hazardous Materials Manager (CHMM) and a Certified Safety Professional (CSP).
