NCSP Next Steps

IPSAC WebEx

Chuck Liebold
Manager Interregional Planning
Next Steps

• Maintain ongoing coordination efforts
  – Continue advancing joint production database
  – Coordinate cross border impact upgrades, interconnections, and transmission service

• Next JIPC planning cycle activities
  – IPSAC meeting to begin planning cycle – 3/28/2014
  – Exchange and review of annual planning cycles
  – Discussion of timing for updated power flow exchange
  – Exchange regional plans and studies with potential interregional impacts and drivers – make material available to IPSAC consistent with CEII requirements
Next Steps

- Process to consider and evaluate for potential Interregional Transmission Projects
  - JIPC reviews regional plans
  - Presentation of JIPC review of regional plans and discuss next steps with IPSAC
  - Receive IPSAC input and comment
  - JIPC identifies potential for interregional projects
