PJM MISO Resettlement Process Flow

**Issue Identification**

- **Production Fix**
  - Production fixes will be executed as quickly as possible to minimize the potential resettlement window
  - Fixes may be temporary or permanent (JOA language changes could be required)
  - Fix could include changes by both RTO’s and/or other vendors

- **Resettlement Needed**
  - No Additional work needed
  - Yes

- **Determine Options**
  - Options for resettlement will be discussed between both RTO’s and potentially other outside entities
  - Options will be evaluated on several criteria but not limited to: cost, manpower, impacts to production, amount of resettlement, complexity and risk
  - Options will be each evaluated for pros and cons and a joint agreement will be made

- **Joint Review**
  - Option Decision

- **Execute Resettlement**

**Potential Stakeholder Notification**
- Based on amount and stakeholder meeting schedule

**Production Fix**
- Production fixes will be executed as quickly as possible to minimize the potential resettlement window
- Fixes may be temporary or permanent (JOA language changes could be required)
- Fix could include changes by both RTO’s and/or other vendors

**Options for Resettlement**
- Options for resettlement will be discussed between both RTO’s and potentially other outside entities
- Options will be evaluated on several criteria but not limited to: cost, manpower, impacts to production, amount of resettlement, complexity and risk
- Options will be each evaluated for pros and cons and a joint agreement will be made

**Stakeholder Notification/Resettlement Form Completed and Posted**

**Confirm and Calculate**

**Financial Transfer**
