Emergency Load Response and Emergency Energy Polling Results

Market Settlements Subcommittee
August 20, 2014
• Purpose of Poll is to assist in the determining if the Subcommittee supports the proposed change
• PJM CBIR – Polling is not “Voting”
• Responders requested to indicate support of:
  – The proposed change or status quo
• 99 responses received
Question # 1: Can you support the proposed inclusion of Load Reconciliation data in the allocation of Emergency Energy Charges/Credits and Emergency Load Response Charges?

- Emergency Energy Charges/Credits:
  - Recalculate participants’ real-time net interchange to consider Load Reconciliation data
  - Adjust original charge/credit allocation using recalculated interchange 2 months after original billing
  - Load Reconciliation would change the total deviations and therefore impact all participants

- Emergency Load Response Charges:
  - Calculate participants’ real-time net interchange to consider Load Reconciliation data
  - No impact to existing bill timing

Question # 2: Do you support making the proposed change or do you support Status Quo?
Can you support the proposed inclusion of Load Reconciliation data in the allocation of Emergency Energy Charges/Credits and Emergency Load Response Charges?

- Yes: 93%
- No: 6%
- Abstain: 1%

Do you support making the proposed change or do you support Status Quo?

- Support a Change: 96%
- Maintain Status Quo: 2%
- Abstain: 2%
Discussion Points

- Majority support for the proposed change
- Discuss PJM proposal
- PJM to conduct impact assessment and identify governing document changes
