• FERC Order 787
• GESTF addressing gas/electric communication
• Weather necessitated expedited action
• Waiver requests approved by FERC
• GESTF to amend Operating Agreement Language
  – OA 18.17.1
• (f) To the extent permitted pursuant to 18 C.F.R. § 38.2 (or successor provisions), nothing contained herein shall prohibit the Office of the Interconnection from sharing non-public, operational information with an interstate natural gas pipeline operator for the purpose of promoting reliable service or operational planning. Moreover, the Office of the Interconnection shall be permitted to share non-public, operational information with natural gas local distribution companies, as appropriate, for the purpose of promoting reliable service or operational planning, provided that such entity is bound by a written agreement to maintain the confidentiality of such information.
