Black Start - Backstop
Tariff Schedule 6A Revisions

SRSTF
May 22, 2014
• Section 6A of Tariff Schedule 6A -- compensation and commitment period for TO owned or contracted for backstop black start resources
  • Black Start units identified through the reliability backstop process in Manual 14D which are owned or contracted for by a PJM Transmission Owner (“TO”) will be compensated under such TO’s Attachment H as filed with and accepted by FERC
  • The commitment period is linked to the cost-recovery period accepted by FERC
  • Such units will be subject to the performance standards and testing procedures established in sections 7-13 of Schedule 6A.
