Esposito, Pati	NRG Power Marketing, L.L.C.
Kline, Susan	Constellation
Patel, Shodhan	Exelon
Pynchon, Chris	PPL Martins Creek, L.L.C.

1. Minutes Review

Ron DeLoach was under the weather and as such, not present to review the minutes from the last EDUG-G meeting (12/07/2009). The minutes were posted on the EDUG website.

2. May 5th, 2010 Enhancement Review

Chidiogo Ike-Egbuonu reviewed the following overall enhancements:

- The addition of an “EMS Outage List” button in the Transmission Facility Outages menu that displays data from the Current section of the linesout.txt file that is posted on OASIS.
- In the Current & Future Outages and Historical Outages filters, there is now option for multi-select for the zones within a company. By default all will be selected.
- Transmission facility outage notification emails now list the Equipment Start/End Dates instead of only the ticket Start/End Dates.

3. IRC Functionality Enhancements

Chidiogo Ike-Egbuonu reviewed the future enhancements to the IRC application scheduled to be implemented in June. These changes were suggested to consolidate IRC data and make it easier for members to review and send IRC data to PJM. These include:

- Replacing regulating and non-regulating reserve values with 'Synchronized Reserve'.
- Hiding Control Zone data, when Control Zone and Ancillary Service Market data are equal.
- Adjustment of certain naming conventions for consistency.

4. Question and Answer Session

Shodhan Patel asked if a notification would be sent out on May 5th to alert users of the start/end times of the eDART outage. Wendy Casterline addressed the issue stating that the times were already established – 7 p.m. to 3 a.m.
