Honorable Kimberly Bose
Secretary
Federal Energy Regulatory Commission
888 First Street, N.E.
Washington, D.C., 20426

Re: Commonwealth Edison Company and Commonwealth Edison Company of Indiana, Inc., Docket No. ER08-____-000

Dear Secretary Bose:

Pursuant to Section 205 of the Federal Power Act (“FPA”), 16 U.S.C. § 824d (2007), and Part 35 of the Commission’s Regulations, 18 C.F.R. Part 35 (2007), Commonwealth Edison Company (“ComEd”) on behalf of itself and its wholly-owned subsidiary, Commonwealth Edison Company of Indiana, Inc., submits an original and five copies of this filing to revise Attachment H-13 (Network Integration Transmission Service for the ComEd Zone) of the PJM Interconnection, L.L.C. (“PJM”) Open Access Transmission Tariff (“Tariff”).¹ The revised tariff sheets incorporate wholesale distribution charges (“WDCs”) and distribution loss factors applicable to wholesale distribution service to Illinois Municipal Electric Agency (“IMEA”) on behalf of two municipalities, the Village of Winnetka (“Winnetka”) and the City of Rock Falls (“Rock Falls”). Both Winnetka and Rock Falls are municipalities in Illinois. Currently, ComEd provides these municipalities with wholesale distribution service pursuant to Schedule F of a Network Integration Transmission Service Agreement (“NITSA”) between PJM Interconnection, L.L.C. (“PJM”) and IMEA. ComEd began providing such service to these municipalities at the time that it began providing service under the PJM OATT. The instant filing revises the charges for the service provided to these customers. ComEd requests a May 1, 2008 effective date for the proposed tariff changes and waiver of the sixty (60) day notice period to accommodate this requested effective date.

PJM has previously stated its preference to maintain the NITSAs as two-party agreements between the customer and transmission provider, and proposed, in other dockets, that ComEd’s WDCs and wholesale distribution loss factors be set forth in Attachment H-13 of the PJM Tariff.² Consistent with this preference, ComEd is making the instant filing to revise its Attachment H-13, so

¹ The facilities of Commonwealth Edison Company of Indiana, Inc. are also included in the ComEd pricing zone. There are no other transmission owners within the ComEd pricing zone.

² See, e.g., Docket No. ER07-1102, *et al.*

as to incorporate revised WDCs and distribution loss factors as applicable to wholesale distribution service that ComEd provides to IMEA on behalf of Winnetka and Rock Falls. It is ComEd's understanding that PJM will revise Schedule F of its existing NITSA with IMEA in order to reflect this filing. Appendix A to this filing contains the revised and redlined tariff sheets for Attachment H-13, which reflect the WDCs and distribution loss factors that ComEd proposes to assess for wholesale distribution service provided to Winnetka and Rock Falls. The WDCs for both Rock Falls and Winnetka are determined in accordance with ComEd's Fixed Charge Rate for wholesale distribution service approved by the Commission in Docket No. ER06-1194.³

ComEd is also, in the context of the instant filing, providing clarifying language to Attachment H-13 concerning the calculation of the transmission losses. This clarifying language in no way affects the calculation of the WDCs and distribution loss factors as applicable to Winnetka and Rock Falls.

Appendix B to this filing contains a summary of the cost support for the WDCs and distribution loss factors for Winnetka and Rock Falls. ComEd is providing, in electronic format, the calculations for both the WDC and distribution loss factors. The WDCs were developed by applying the FCR of 24% to the net distribution plant that is directly assigned to the individual customer taking wholesale distribution service from ComEd. The distribution loss factors represent the energy lost due to power flows through ComEd's distribution substation transformers and distribution feeders, which are used to deliver power from the PJM operated transmission system to the delivery points for Winnetka and Rock Falls. ComEd calculated the loss factors for the two municipalities in the following manner. First, ComEd determined the peak power loss for each feeder using power flow software that models the conductor properties and the load of existing customers on the peak day of August 6, 2007. Then, substation transformer losses were determined. The energy loss relative to the peak loss for all non-peak hours for the most recent 12-month period was determined using an hourly to peak load loss ratio, which is defined as the square of the hourly substation load divided by the square of the peak load at the substation. This ratio is used because energy losses are proportional to the square to the load. Annual losses due to load are calculated as the peak load multiplied by the average of all hourly to peak load loss ratios, multiplied by the percent of losses at peak. ComEd determined the annual no-load losses and added them to the sum of annual load losses to derive the total losses. The annual energy loss factor is the total annual losses divided by the annual energy delivered.

ComEd requests that the proposed revisions to Attachment H-13 be accepted with an effective date of May 1, 2008 and requests waiver of the sixty (60) day notice period to accommodate this requested effective date.⁴ Good cause exists to grant waiver of the prior notice requirement, because ComEd has reviewed the calculations with Rock Falls and Winnetka, and as a result of these reviews, it is ComEd's understanding that both customers have agreed to the calculations underlying these charges.

³ See Letter Order, Docket No. ER06-1194 (Aug. 15, 2006) (accepting ComEd's FCR filing).

⁴ 18 C.F.R. § 35.11.

I. Persons On Whom This Filing Is Being Served

Pursuant to Section 35.2(d) of the Commission's regulations, a copy of this filing is being served on representatives of PJM, the Illinois Commerce Commission, the Indiana Utility Regulatory Commission, and the customers at issue, IMEA, Winnetka, and Rock Falls. ComEd has requested PJM to serve a copy of this filing as well on all PJM members and on all state utility commissions in the PJM region by posting this e-filing electronically, and requests waiver of paper service. Waiver of paper service is consistent with the Commission's decision to establish electronic service as the default method of service on service lists maintained by the Commission Secretary for Commission proceedings.⁵ While Order No. 653 did not amend the posting requirements, application of its rules to initial tariff filings would be consistent with the Commission's "efforts to reduce the use of paper in compliance with the Government Paperwork Elimination Act."⁶ Applying amended Section 385.2010(f) to this filing, ComEd has requested PJM to post this filing today to the FERC filings section of PJM's internet site, *available at* <http://www.pjm.com/documents/ferc.html>, and send an email to all PJM members and all state utility regulatory commissions in the PJM region⁷ alerting them that this filing has been made by ComEd today and is available by following such link.

II. Miscellaneous

No agreement is required by contract for the filing of this rate filing. There are no costs included in this filing that have been alleged or adjudged in any administrative or judicial proceeding to be illegal, duplicative, or unnecessary costs, nor has any expense or cost been demonstrated to be the product of discriminatory or employment practices, within the meaning of Section 35.13(d)(3).

III. Persons To Whom Correspondence Should Be Addressed

Persons to whom correspondence and communications regarding this filing should be addressed are as follows:

Cost support for Winnetka and Rock Falls.

CERTIFICATE OF SERVICE

I hereby certify that I have, on this day, served a copy of the foregoing upon representatives for PJM, IMEA, Rock Falls, Winnetka, the Illinois Commerce Commission, and the Indiana Regulatory Commission. In addition, I have, as described in the body of this letter, requested PJM to post this filing today to the FERC filings section of its internet site, <http://www.pjm.com/documents/ferc.html>, and send an email to all PJM members and all state utility regulatory commissions in the PJM region⁸ alerting them that this filing has been made by ComEd today and is available by following such link.

Dated at Washington D.C., this day of April 24, 2008.

APPENDIX A

ATTACHMENT H-13

Annual Transmission Rates -- Commonwealth Edison Company for Network Integration Transmission Service

1. The annual transmission revenue requirement and the gross rate for Network Integration Transmission Service are equal to the results of the formula shown in Attachment H-13A, posted on the PJM website, which reflects the transmission facilities of Commonwealth Edison Company ("ComEd") under the operational control of PJM. The rate determined pursuant to Attachment H-13A shall be implemented pursuant to the Formula Rate Implementation Protocols set forth in Attachment H-13B. Service utilizing other facilities will be provided at rates determined on a case-by-case basis.
2. On a monthly basis, revenue credits shall be calculated based on the sum of ComEd's share of revenues collected during the month from: (i) the PJM Border Rate under Schedule 7; (ii) Network Integration Transmission Service to Non-Zone Network Load under Attachment H-A; (iii) Seams Elimination Charge/Cost Adjustment/Assignment ("SECA") revenues allocable to ComEd under the Tariff; and (iv) any Point-To-Point Transmission Service where the Point of Receipt and the Point of Delivery are both internal to the ComEd Zone. On this basis, the sum of these revenues will appear as a reduction to the gross monthly rate stated above on a Network Customer's bill in that month for service under this attachment.
3. Within the ComEd Zone, a Network Customer's peak load shall include a transmission loss percentage of 1.6% applied to the measured load as well as any distribution losses as reflected in applicable state tariffs and/or service agreements that contain specific distribution loss factors for said Network Customer.
4. The rate and revenue requirement in paragraph 1 of this attachment shall be effective until amended by the Transmission Owner(s) within the Zone or modified by the Commission.
5. In addition to the rate set forth in paragraph 1 of this attachment, the Network Customer purchasing Network Integration Transmission Service shall pay for transmission congestion charges, in accordance with the provisions of the Tariff, and any amounts necessary to reimburse the Transmission Owners for any amounts payable by them as sales, excise, "Btu," carbon, value-added or similar taxes (other than taxes based upon or measured by net income) with respect to the amounts payable pursuant to the Tariff.
6. In addition to the other rates set forth in this schedule customers, within the ComEd zone shall be charged for recovery of RTO start-up costs at the following rates, each computed to four decimal places:

Annual Rate - $\$/kW/year = \$1,523,039$, divided by the 1 CP demand for the ComEd zone for the prior calendar year;

Monthly Rate - $\$/kW/month = \text{Annual Rate divided by } 12$;

Weekly Rate - $\$/kW/week = \text{Annual Rate divided by } 52$;

Daily Rate - $\$/kW/day = \text{Weekly Rate divided by } 5$.

In order to ensure that the charge does not result in either an over-recovery or under-recovery of ComEd's start-up costs, PJM will institute an annual true-up mechanism in the month of May of each of the years 2008-2014. In May of each of those years, PJM will compare the amount collected under this charge for the previous 12 months with the target annual amount of \$1,523,039 and calculate any credits or surcharges that would be needed to ensure that \$1,523,039 is collected for each year. Any credit or surcharge will be assessed in the June bills for years 2005-2014, consistent with the above methodology.

7. An annual Fixed Charge Rate of 24% shall apply to the net distribution plant that is directly assigned to a customer taking wholesale distribution service over ComEd distribution facilities. The net distribution plant will be directly assigned to the customer based on the customer's pro-rata share of the non-coincident peak loading (or maximum net output of the unit) of the distribution facilities necessary to provide the service.
8. In accordance with Paragraph 7 above, wholesale distribution service shall be provided to the customers identified below at the identified annual charge corresponding to such customer:

Customer	Charge
Town of Winnetka	\$164,080
Town of Rock Falls	\$166,082

9. In accordance with Paragraph 3 above, the annual distribution loss factors identified below shall apply to wholesale distribution service provide to the identified customers:

Customer Factor	Annual Distribution Loss
Town of Winnetka	0.30%
Town of Rock Falls	0.83%

Issued By: Craig Glazer
Vice President, Federal Government Policy
Issued On: April 24, 2008

Effective: May 1, 2008

ATTACHMENT H-13

Annual Transmission Rates -- Commonwealth Edison Company for Network Integration Transmission Service

1. The annual transmission revenue requirement and the gross rate for Network Integration Transmission Service are equal to the results of the formula shown in Attachment H-13A, posted on the PJM website, which reflects the transmission facilities of Commonwealth Edison Company (“ComEd”) under the operational control of PJM. The rate determined pursuant to Attachment H-13A shall be implemented pursuant to the Formula Rate Implementation Protocols set forth in Attachment H-13B. Service utilizing other facilities will be provided at rates determined on a case-by-case basis.
2. On a monthly basis, revenue credits shall be calculated based on the sum of ComEd’s share of revenues collected during the month from: (i) the PJM Border Rate under Schedule 7; (ii) Network Integration Transmission Service to Non-Zone Network Load under Attachment H-A; (iii) Seams Elimination Charge/Cost Adjustment/Assignment (“SECA”) revenues allocable to ComEd under the Tariff; and (iv) any Point-To-Point Transmission Service where the Point of Receipt and the Point of Delivery are both internal to the ComEd Zone. On this basis, the sum of these revenues will appear as a reduction to the gross monthly rate stated above on a Network Customer’s bill in that month for service under this attachment.
3. Within the ComEd Zone, a Network Customer’s peak load shall include a transmission loss percentage of 1.6% applied to the measured load as well as any distribution losses as reflected in applicable state tariffs and/or service agreements that contain specific distribution loss factors for said Network Customer.
4. The rate and revenue requirement in paragraph 1 of this attachment shall be effective until amended by the Transmission Owner(s) within the Zone or modified by the Commission.
5. In addition to the rate set forth in paragraph 1 of this attachment, the Network Customer purchasing Network Integration Transmission Service shall pay for transmission congestion charges, in accordance with the provisions of the Tariff, and any amounts necessary to reimburse the Transmission Owners for any amounts payable by them as sales, excise, “Btu,” carbon, value-added or similar taxes (other than taxes based upon or measured by net income) with respect to the amounts payable pursuant to the Tariff.
6. In addition to the other rates set forth in this schedule customers, within the ComEd zone shall be charged for recovery of RTO start-up costs at the following rates, each computed to four decimal places:

Annual Rate - $\$/kW/year = \$1,523,039$, divided by the 1 CP demand for the ComEd zone for the prior calendar year;

Monthly Rate - $\$/kW/month = Annual Rate$ divided by 12;

Weekly Rate - $\$/kW/week = Annual Rate$ divided by 52;

Daily Rate - $\$/kW/day = Weekly Rate$ divided by 5.

In order to ensure that the charge does not result in either an over-recovery or under-recovery of ComEd's start-up costs, PJM will institute an annual true-up mechanism in the month of May of each of the years 2008-2014. In May of each of those years, PJM will compare the amount collected under this charge for the previous 12 months with the target annual amount of \$1,523,039 and calculate any credits or surcharges that would be needed to ensure that \$1,523,039 is collected for each year. Any credit or surcharge will be assessed in the June bills for years 2005-2014, consistent with the above methodology.

7. An annual Fixed Charge Rate of 24% shall apply to the net distribution plant that is directly assigned to a customer taking wholesale distribution service over ComEd distribution facilities. The net distribution plant will be directly assigned to the customer based on the customer's pro-rata share of the non-coincident peak loading (or maximum net output of the unit) of the distribution facilities necessary to provide the service.

8. In accordance with Paragraph 7 above, wholesale distribution service shall be provided to the customers identified below at the identified annual charge corresponding to such customer:

<u>Customer</u>	<u>Charge</u>
Town of Winnetka	\$164,080
Town of Rock Falls	\$166,082

9. In accordance with Paragraph 3 above, the annual distribution loss factors identified below shall apply to wholesale distribution service provide to the identified customers:

<u>Customer</u>	<u>Annual Distribution Loss</u>
Town of Winnetka	0.30%
Town of Rock Falls	0.83%

Configuration assumptions

Overhead conductor is ACSR /AL.

Overhead span lengths: double circuit 34 kV = 150 ft; single circuit 34 kV = 180 ft; 12.5 kV = 150 ft

Arrestor interval: 34 kV > 800 ft; 12.5 kV > 600 ft. ESP 5.7.5.5

Two anchors and 100 ft of guy wire per circuit mile

Conduit configuration: 12 duct bank, 8 usable ducts

Riser duct length = 50 ft including connection to manhole. Two risers per 2000 ft of cable.

manhole spacing = 600 ft.
