September 21, 2010
PJM has received updated information regarding the expected return dates of the Wylie Ridge T8 and T5 500/345kV transformers. The T8 transformer is expected to return to service on June 1, 2011. The T5 transformer is expected to return to service on September 1, 2011. The outage tickets have been updated and posted accordingly @ https://edart.pjm.com/reports/linesout.txt.

September 17, 2010
Given the FERC order of September 17th in docket number ER10-2280 approving PJM’s August 18th filing, PJM will be eliminating the transmission service and ancillary service charges, as well as the loss surplus credits associated with any OASIS reservations utilized to submit up-to-congestion transactions for Friday, September 17th and Saturday, September 18th. The new OASIS product for submitting up-to-congestion transactions was made available beginning with transactions submitted for Sunday, September 19th, so no such settlement adjustments are necessary going forward from the 19th.

September 2, 2010
This is notice that on Thursday 09.09.2010, PJM will begin coordinating Available Flowgate Capability (AFC) values to respect Progress Energy Carolinas Flowgates, as part of the Joint Operating Agreement between PJM and Progress Energy Carolinas Article 5.1.2.

If you have any questions call the OASIS Hotline (610) 666-8972 or email OASIS Administrators.

August 20, 2010 (Customer Initiated Requests for Discounts):

Hi Bob,

Did the TOA-AC consider a reduction in rate as an alternative? I know that the presentation asked for an elimination of the out service transmission rate but a reduction of the rate would be an alternative that the TSR holders would consider acceptable as well. Would you be willing to resurrect the discussion with the group to consider a reduction in rate? I look forward to your reply.

Regards,
Frank Francis

Dear Frank:

I am responding on behalf of the Transmission Owner Agreement-Administrative Committee ("TOA-AC") regarding your request, made on behalf of the Linden VFT, LLC TSR Holders and Long Island Power Authority ("LIPA") at the July 15, 2010 TOA-AC meeting, to remove the PJM Out-Service Transmission Rate for the Linden VFT, LLC ("Linden VFT") and Neptune Regional Transmission System, LLC, ("Neptune") customers.

The TOA-AC has discussed your request and has given it serious consideration. The TOA-AC has concluded that the PJM Out-Service Transmission Rate is being applied in accordance with the terms and conditions of the tariff and circumstances do not warrant a departure from the current practice. Consequently, the TOA-AC does not support your request to eliminate the requested PJM charges for the Linden VFT and Neptune customers.

Sincerely,
Bob Mattiuz

Bob et al,

On behalf of the TSR holders and LIPA please find attached a proposal for your review with the members of the TOA-AC. We are hoping to present and to discuss this proposal with the TOA-AC at its July 15, 2010 meeting. Thanks in advance and I look forward to hearing from you as to the next steps.

Please feel free to contact me if you have any further questions

Regards,
Frank Francis

Today a day-FIRM transaction (1445732) was accepted when it should have been refused. This was a PJM clerical error, the customer was contacted promptly, and the transaction was annulled.
May 14, 2010
Pursuant to Schedule 7, paragraph 3 of the PJM Tariff, Brookfield Energy Marketing Inc., Conectiv Energy Supply, Inc., Cargill Power Markets, LLC, Consolidated Edison Energy, Inc. and Long Island Power Authority have submitted to PJM customer-initiated requests for discounts to rates for firm point-to-point transmission service. The requests for discounts apply to the following firm point-to-point services:

Source: Any location within PJM
Sink: LINDENVFT

POR: Any location within PJM
POD: LindenVFT

Source: Any location within PJM
Sink: Neptune

POR: PJM
POD: Neptune

Consistent with the rights reserved to the Transmission Owners in Article 7 of the Consolidated Transmission Owners Agreement (CTOA), PJM has referred these requests to the Administrative Committee of the CTOA for consideration.
