

PJM estimated Demand Response activity on recent Hot Days

July 9, 2010

PJM estimated Demand Response

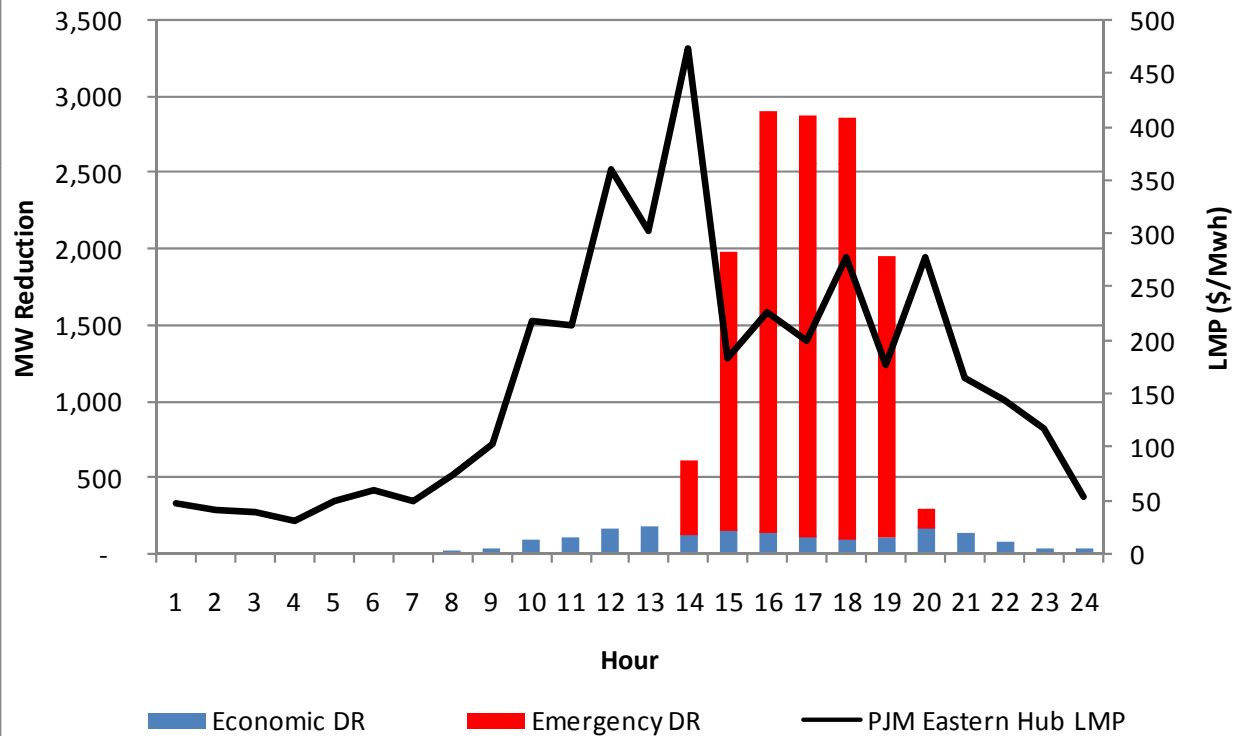

- Following two charts depict:
 - All economically scheduled demand response across PJM
 - All emergency demand response (known as “load management” or “ILR/DR”) capacity resources called by PJM to reduce load that had not already reduced economically
 - No emergency resources called on July 6; Emergency resources called in Dominion Zone and most of Mid-Atlantic Region on July 7
 - See the following link for details - <http://www.pjm.com/planning/resource-adequacy-planning/~media/planning/res-adeq/load-forecast/alm-history.ashx>
- Actual reductions achieved will be known after all individual customer meter data is provided for settlements – deadline for submission is 60 days after event.

Estimated Demand Response in PJM July 6, 2010

Note: Actual load reductions are not finalized until up to 3 months after event.

Estimated Demand Response in PJM July 7, 2010

Note: Actual load reductions are not finalized until up to 3 months after event.

PJM Mid-Atlantic Region Load 7/7/10
