

Capacity Performance Readiness Plan

Tim Burdis
State & Member Services
Members Committee Webinar
February 15, 2015

OBJECTIVES

- Deliver to Capacity Sellers key process updates to the 2015 Base Residual Auction and Transitional Auctions given a Capacity Performance (CP) design.
- Allow a forum for stakeholder questions and further clarification.

ASSUMPTIONS

- FERC action on Capacity Performance in April 2015.
- Interaction of Demand Response Stop Gap filing not a portion of CP Readiness

NOTE: The 4/15/15 WebEx is tentative at this time and may be rescheduled.

- Manual 18 updates
 - MRC 2/26
 - *Draft* language incorporating CP based on PJM's filed proposal
 - MRC 3/26
 - *Draft* language incorporating stakeholder feedback
 - MRC 4/23
 - *Draft* language incorporating CP based on the FERC's approval, subject to approval.

- Training sessions will be held
 - Sessions target “Capacity Sellers” for auction participation
 - 3/16, 4/15
 - Sessions open to all stakeholders
 - Sessions recorded and available
 - Sessions cover 2018/19 BRA and April Transitional Auctions
 - Sessions contain business process *and* technical updates to eRPM
 - Participants encouraged to provide feedback
 - PJM will adjust sessions and materials to meet needs
