

Regional Planning Process
Task Force Report
PJM Interconnection – Members Committee Webinar
March 23, 2015

The [Regional Planning Process Task Force](#) (RPPTF) last met on March 19, 2015.

Progress continues on addressing Generation Interconnection as a potential input to Multi-Driver Projects. Taking into consideration (a) the far-reaching impacts to both the OA and the Tariff as well as (b) the relative infrequency of these opportunities, the RPPTF is investigating going forward with establishing and documenting general principles within PJM Manuals by which to address each case on a “one-off” basis.

Next meeting:

The next RPPTF meeting is scheduled for April 16, 2015.
