

Black Start Problem Statement / Issue Charge Monthly Progress Report

Operating Committee
July 9, 2020

1. [Black Start Unit Involuntary Termination; Substitution; Capital Cost Recovery \(CRF\) and Minimum Tank Suction Level \(MTSL\)](#)

Issue Status

The Black Start Problem Statement / Issue Charge is utilizing the application of the Consensus Based Issue Process (CBIR Lite). Two packages have been developed, one by PJM and one by the IMM. First read of the packages was done at the July 9, 2020 Operating Committee Meeting, and a first read will be conducted again (per stakeholder request) at the August 6, 2020 Operating Committee Meeting.

Target Completion

October 2020

Progress Update

[Black Start Education](#); May 14, 2020 Operating Committee Meeting

[Review of Black Start Problem Statement / Issue Charge Matrix](#); June 3, 2020 Operating Committee Meeting

[First Read of Black Start Problem Statement / Issue Charge Matrix](#); July 9, 2020 Operating Committee Meeting (*please note: per stakeholder request, a first read will be conducted again at the August 6th Operating Committee Meeting*)

Voting of the packages scheduled to take place at the September 3, 2020 Operating Committee Meeting

Action Requested

PJM Staff conducted a first read of the Black Start Problem Statement / Issue Charge Matrix at the recent Operating Committee meetings and requesting stakeholder feedback. Feedback may be emailed to blackstart@pjm.com.
