

Cost Development Subcommittee Monthly Progress Report

February 8, 2023

Fuel Cost Policy

Issue Status

- IMM Opportunity Cost Calculator issue charge was presented with updated manual language to reflect accurate documentation. This issue was identified in the PJM annual review of the IMM calculator.
- An update was provided on Start Costs that FERC has accepted the Start-Up Costs and Emission Adder filing.

Target Completion

March 2023 – Manual language for both the Heat Input and Modeling Options for CC and Specialized boilers and the updated language for the IMM Cost Calculator will be bundled.

Progress Update

Updated manual language will be brought through the stakeholder process.

Action requested (if necessary)

There will be a Start Cost education session on **March 13th 3:00 – 5:00 pm**
