

Capacity Interconnection Rights Follow Up

Jason Quevada
Resource Adequacy Planning
January 7, 2020

- CIR Problem Statement and Issue Charge presented at the June MRC meeting
- CIR Education presented at the November PC meeting

	CIRlost2010	CIRlost2011	CIRlost2012	CIRlost2013	CIRlost2014	CIRlost2015	CIRlost2016	CIRlost2017	CIRlost2018	CIRlost2019
total lost CIR MW	217	446	336	485	193	507	340	386	428	207
# of units losing CIRs	64	62	63	121	96	142	103	126	122	143

- About 30+ transfers of CIRs requested dating back to the T queue (2007/2008)
- ~7000 MWs of requested CIRs from deactivations were eligible to be transferred
- A queue request may request transfer of a CIR amount less than the total CIR value of the deactivation unit(s).
- Each queue request to transfer CIRs are in different stages of the queue (In-service, Under Construction, Active/Under Study, Withdrawn, etc)
