Mojtaba Hoshmand

Interconnection Analysis &
Interconnection Projects groups

- **AF1/AF2/AG1 SIS 'Results Only' Reports issued**
 - Reports were issued on **April 17th** to Queue customers that are in the SIS phase of study who never received their Original SIS reports.
- **What are they?**
 - Summer Peak and Light Load load flow analysis results only (no short circuit or stability results).
 - Provides total cost of each required reinforcement (no cost allocation).
 - Not considered final SIS reports and not publically posted to PJM website.
- **Purpose of 'Results-only' Reports**
 - To provide the most up to date load flow study information as we approach transition to the reform.
 - Not a formal determination of your project's Fast Lane vs. TC1 disposition.
- **Detailed Questions on violations in your report** – Please reach out to your PJM PM.
