

June 4, 2025

An addendum to the PJM Board of Managers correspondence dated June 3, 2025 in response to Legislators of the New Jersey Senate Select Committee, Assembly Telecommunications and Utilities Committee.

In response to Question 14 of this correspondence, PJM references "Attachment 1." Due to size limitations, Attachment 1 is being described herein.

That attachment is a compilation of all Markets and Reliability Committee and Members Committee meeting minutes inclusive of consent agenda voting outcomes as well as posted voting reports for all meetings that occurred January 2020 – April 2025. Attachment 1 also contains all Planning Committee, Operations Committee, and Market Implementation Committee reports containing voting results that are sent to the higher committee. All documents included in Attachment 1 are PDFs from PJM.com within the relevant committee's meeting materials and during the time horizon which is consistent with PJM's document retention policies. Please note, while Question 14 requests the specific votes of each Member, pursuant to the stakeholder process rules and PJM Manual 34, the only voting reports that share Member-specific votes are Members Committee voting reports.
