PJM Board of Managers
PJM Interconnection
2750 Monroe Boulevard
Audubon, PA 19403

Dear Members of the PJM Board of Managers,

On behalf of Ohio's leading business organizations, we write to underscore the importance of ensuring that the PJM Board of Managers reflects the diversity of the states and stakeholders it serves. Ohio is the largest electricity-consuming state within the PJM footprint, representing a substantial share of the region's load. As such, decisions made by the Board have a profound impact on our economy, our workforce, and our ability to meet future energy demands.

We understand that PJM is currently seeking to fill two vacancies on the Board. As part of that process, we urge you to give full and fair consideration to candidates who understand the perspectives of high-load, manufacturing-intensive states like Ohio—individuals who bring independent but informed insight into the challenges facing both energy providers and large end users across the region. These perspectives are critical to achieving a well-rounded, functional Board—particularly given the scale of transformation occurring in generation mix, transmission needs, and load growth.

We believe strongly that the size of Ohio's energy footprint warrants representation by someone with a deep understanding of our state's industrial base, reliability needs, and the interconnected nature of PJM's planning and market operations.

In short, we urge the Board to prioritize candidates who—while meeting independence requirements—can thoughtfully represent the interests of energy-intensive regions and bring practical, real-world expertise to the table. Doing so will enhance stakeholder trust and ensure the Board is well equipped to navigate the complex challenges ahead.

Thank you for your consideration and for your continued commitment to transparent and inclusive governance of the PJM system.

Sincerely,

Pat Tiberi
