

CIFP-LLA Vote Information

- After the Stage 4 CIFP meeting, votes on the CIFP-Large Load Addition solution packages will occur via PJM's [Voting Application](#) at the November 19, 2025 **Special Members Committee** meeting.
- At the Members Committee, Voting Members and Ex Officio Voting Members are eligible to vote. Each Member is allowed 1 primary and up to 3 alternate representatives per stakeholder group roster, but only one roster representative may cast a vote on behalf of a Member.
- The following slide provides an overview of the steps required for PJM Member representatives to vote. These steps will need to be completed by no later than 5:00 p.m. EPT on November 18 to ensure voting capability. Please allow additional time for necessary process approvals.

- All voters must meet two requirements to be eligible to vote:
 1. **Members Committee roster representation.** Roster requests submitted through the [Roster Update Form](#) must be approved by your company's Roster Manager(s). **(Note: The CFP-LLA roster will not grant you voting rights at the MC.)**
 2. **Voting Read/Write Access must be granted to your PJM user account in the [account manager tool](#).** Any additional access will be pending your CAM's approval prior to use. Additional information regarding access requests can be found in the account manager [quick guide](#).
