

Effective Load Carrying Capability Senior Task Force Monthly Progress Report

January 15, 2025

1. Capacity Market Enhancements – ELCC Accreditation Methodology

Target Completion Date

2025 Q1

Issue Status

The MRC approved the ELCC Accreditation Methodology Issue Charge at the 10/30/2024 meeting and initiated a new stakeholder group to work the issue, the Effective Load Carrying Capability Senior Task Force (ELCCSTF).

The ELCCSTF started the CBIR process at the 12/5/2024 meeting, including a review of the Problem Statement, Issue Charge, and draft work plan for the issue.

At the ELCCSTF meetings on 12/20/2024 and 1/10/2025, design components and solutions options for this issue were discussed by stakeholders. The senior task force will meet again on 1/24/2025 and 2/3/2025. An offline vote on this issue is anticipated following the 2/3/2025 meeting.

Action Requested

Stakeholders are asked to provide additional solution options and packages to the facilitation team ahead of the 1/24/2025 meeting.

2. Capacity Market Enhancements – Data Transparency

Target Completion Date

2025 Q1

Issue Status

The MRC approved the Issue Charge at the 10/30/2024 meeting and initiated a new stakeholder group to work the issue, the Effective Load Carrying Capability Senior Task Force (ELCCSTF).

At the 12/5/2024 ELCCSTF meeting, the Problem Statement, Issue Charge, and draft work plan for the issue were reviewed.

At the ELCCSTF meetings on 12/20/2024 and 1/10/2025, the CBIR process continued with discussion of interests, design components and solutions options. The senior task force will meet again on 1/24/2025 and 2/3/2025. An offline vote on this issue is anticipated following the 2/3/2025 meeting.

Action Requested

Stakeholders are asked to provide additional solution options and packages to the facilitation team ahead of the January 24, 2025 meeting.

3. Capacity Market Enhancements – CETL

Target Completion Date

May 2025

Issue Status

The Planning Committee (PC) approved the Capacity Markets Enhancement - Capacity Emergency Transfer Limit (CETL) Issue Charge at the 11/6/2024 meeting.

The PC held a special session to provide education on CETL on 12/16/2024. The MRC voted to approve the re-assignment of the Issue Charge to the ELCCSTF at its 12/18/2024 meeting.

At the 1/10/2025 ELCCSTF, the draft work plan for addressing the CETL issue was reviewed. The ELCCSTF work plan calls for CBIR work on the CETL issue to resume at the group's 2/19/2025 meeting.

Action Requested

Stakeholders interested in the CETL issue are asked to review the ELCCSTF Overview and Participation Instructions presentation posted with the 12/5/24 meeting materials to ensure you are registered for ELCCSTF meetings, subscribed to the ELCCSTF email list and make the appropriate roster request for your company.
