MRC voting date:	May 25, 2017
Impacted Manual sections:	
Section 12 – Meter Reconciliation Accounting	
Reason for change:	
A Problem Statement and Issue Charge was introduced by North Carolina Electric Membership Corporation (NCEMC) to allow pseudo-tied generators and dynamic schedules to submit meter error corrections. The Problem Statement was assigned to the Market Settlements Subcommittee to develop solution package(s).	
Summary of the changes:	
Updated Section 12 to include pseudo-tie generator and dynamic schedule imports and exports and define the applicable rate as well as the impacted market participants.
