MRC 1 st read	November 21, 2024	
date:		
MRC voting	December 18, 2024	
date:		
Impacted Manual sections (sections effected by periodic/errata changes omitted):		

- Section 4.9.2: Generator Interconnection into Existing Transmission Owner's Substation
- Section 7.2: Site Control Requirements in the Cycle Process
- Attachment K: Site Control Modifications

Reason for change:

 PJM wants to add detail and clarity to its Manual M-14H around Site Control to communicate requirements as TC1 progresses and TC2 application phase closes

Executive Summary Manual Changes

Summary of the changes:

- Correct Exhibit 10 in Section 4.9.2.
- Update Sections 7.2.1, 7.2.2, 7.2.3, and 7.2.4 to clarify Site Control modifications allowed throughout Cycle process
- Added Attachment K showing example diagram progressions of allowable and not allowable Site Control modifications throughout Cycle process
