| <b>Summary of the changes:</b><br>3.2.1.1 PJMnet Communications Systems. Language added to the description of PJMnet Communications System for the latest CIP-012-2 requirement updates.<br><br>3.2.3 EMS Data Exchange. Removed redundant and possibly confusing "repeatability of data" accuracy requirement. |           |

# Executive Summary Manual Changes

3.2.3 EMS Data Exchange. Language added to clarify that PJM is not a generic data forwarding agent between parties for telemetry.

3.2.3 Clarified that members with DNP links should also, like with ICCP links, provide data maps and definitions.

5.3.4 Maintenance (Billing Meter). Removed requirement that meter test results should be submitted to PJM.

Attachment F. Updated contact information for PJM NERC Compliance.
