NERC Compliance

STANDARD:  
**EOP-012**

## Project 2024-03 Revisions to EOP-012-2

PROJECT BACKGROUND:		Action	End Date
<p><b>Background</b></p> <p>The purpose of this project is to address the directives identified by FERC in its June 27, 2024 order approving Reliability Standard EOP-012-2 and directing further modifications. N. Am. Elec. Reliability Corp., 187 FERC ¶ 61,204 (2024), available <a href="#">here</a>. In that order, FERC found that further improvements needed to be made to address ambiguous language and address other reliability gaps/implementation issues in the standard and related definitions to fully address issues first raised in the Commission's February 2023 Order approving EOP-012-1. FERC directed that NERC submit the modifications within 9 months of the date of the order, or by March 27, 2025.</p> <p>To meet FERC's March 27, 2025, deadline, and in deference to the importance of this standard, the Board invoked its authority under <b>Section 321.5</b> of NERC's Rules of Procedure. Under this authority, the Board directed the Standards Committee, with the assistance of stakeholders and NERC staff, to prepare a responsive standard. A special Board meeting will take place in March 2025 to review the standard and a complete record, including the comments submitted during the public comment period.</p> <p><a href="#">Submit Comments</a></p>		Comments	03/12/2025

## ReliabilityFirst (RF)

### ➤ Technical Talks with RF
