

Distributed Resources Subcommittee (DISRS) Update

Ilyana Dropkin, Sr. Engineer
Performance Compliance
Operating Committee
May 8, 2025

- Wind and Solar Resource Dispatch in Real-time Market Clearing Engines
 - CBIR Process: Two identical Solution Packages except for Curtailment Indicators for wind and solar resources.
 - Package A (PJM): Curtailment Indicator for wind currently set to be retired in July of 2025, resources expected to follow PJM dispatch signal. (Status Quo)
 - Package B (Shell Energy/AEP/Dominion/Gabel Associates): Retain curtailment indicator for wind and add a new curtailment indicator for solar.
 - Non-Binding Polling on both packages opens on May 6, 2025 and closes on May 16, 2025 COB.
 - The Curtailment Indicator for wind resources was voted to be removed by stakeholders as part of the [Renewable Dispatch](#) issue solution package moved through Operating Committee in October 2022 and endorsed by the Members Committee in May 2023.
