	Weather Forecast tools

August 15, 2025 (Friday 1400)

- Go/No-Go Decision Point

September 8, 2025 (Monday 1200)

- By above date, all TOs submit & maintain PRD-ready data (*881 Lookup Tables*) in eDART TRN environment
 - eDART TRN 881 rating upload testing pauses
 - TOs Continue to maintain *non-881 Lookup Tables* in eDART PRD
- PJM EMS Support begins consuming 881 data to prepare the PRD environment for Go-Live

November 4, 2025 (Tuesday TBD)

- PJM Go-Live
- TOs maintain only *881 Lookup Tables* in eDART PRD and eDART TRN testing uninhibited

Go-Live Ready

On Target

At Risk

NOT Ready for Go-Live

From September 8, 2025 to PJM 881 Go-Live (November 4, 2025):

- eDART TERM 881 bulk updates, if needed, to be completed ahead of 9/8.
- TO updates to legacy PRD Lookup Tables to be reflected by TOs in their 881 TRN Lookup Tables. (At the time of legacy changes OR at weekly/bi-weekly true-up periodicity.)
 - Maintained at the facility level, not via TERM bulk updates.
 - Via UI or eDART CLI.
 - eDART TRN testing of non-Lookup Table *update* features may proceed as needed.
- Questions or any need for deviations from above to be coordinated with PJM EMS Support via TERMTickets@pjm.com. For assistance with eDART UI/CLI, eDART881@pjm.com.

End of September (Date TBD):

- Availability of PJM's 881-based real-time Ambient Condition telemetry (i.e. Temp Set Index) for TO Regions. PJMTelemetrySupport@pjm.com for questions.
